

NFC Magnets - B2B brief for hotels and theme parks

Website: <https://nfcmagnetsco.com>

Contact: josenav97@gmail.com

NFC Magnets creates physical NFC magnets linked to private digital albums. The commercial focus is B2B: hotels, hotel groups, resorts, theme parks and tourism destinations that want a physical souvenir connected to a private mobile-first digital experience.

Main keywords: NFC magnets for hotels, custom NFC magnets, hotel NFC souvenir, tourism NFC souvenir, private NFC photo album, NFC magnets for theme parks, physical-to-digital guest experience.

Value proposition

1. Personalized physical NFC object for rooms, reception, gift shops, welcome packs or premium souvenir sales.
2. Private album for photos, videos and notes, without installing an app.
3. PIN activation, privacy by design and controlled routes.
4. Batch management for pilots, properties, collections and brands.
5. Admin panel for magnet status, activations and operational usage.

NFC hardware is standard. The value of NFC Magnets is the experience, private flow, batch management, B2B customization and support.

Priority B2B use cases

- Hotels and hotel groups: stay memory, tourism upselling, destination collections and physical-to-digital guest experience.
- Resorts: premium keepsake connected to holidays, family and return visits.
- Theme parks: NFC souvenir with a private album from the visit.
- Tourism destinations: physical memory connected to digital content.

Events are not the current commercial focus. Exceptions may be evaluated when the project fits a brand, destination or B2B partner.
